

Outduction: Enhancing the Final Year Experience

A 3-year collaborative project between the University of Bradford and Kingston University London, funded by the National Teaching Fellowship Scheme.

The Bradford Experience

Our first event in April 2009

Interns gathered data on students' highlights, memories, challenges and achievements

Our Outduction Big Event – 13 October 2010

Interns at both institutions made use of the **Networking Game** developed by **Birmingham City University** as part of their **Creating future-proof graduates** NTFS project -

<http://www2.bcu.ac.uk/futureproof>

Bradford Interns have worked with Hermione Berry, Careers, who uses the game within her teaching sessions.

Our wonderful interns.

Achievements:

- Getting the internship;
- Data gathering.

Highlights:

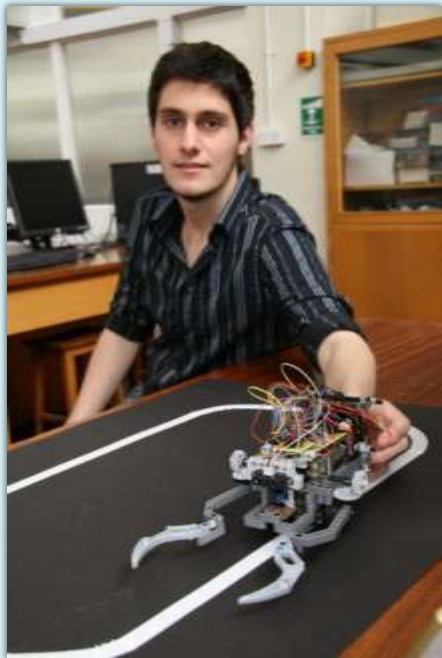

- Focus group training;
- Conducting focus groups;
- Presenting at the LTA conference;
- Positive feedback.

Memories:

- The diversity of the intern groups.

Challenges:

- Learning to work in a group.

EDT Project Showcase – May 2010

EDT final year project work is assessed en-masse over the two days' project show.

Local employers are invited along to the showcase.

The employers we spoke to were looking for:

“Whether they understand the technology, what to expect when employing”

“How good they are - quality of their work, talking with students; idea of students ability”

“Subject matter - electrical engineering & low-carbon”

Degree Show 2011

Students from Bradford Media School and the Department of Creative Technology will display their final year project work on Friday 27th May 2011 in the Small and Great Hall in Richmond Building.

We have a national reputation as a leader in the teaching of new media production degree courses, and our students produce award-winning project work which frequently breaks new ground. Our graduates go on to work across various disciplines which include Graphic Design, Web Design, Games, Animation, Photography, Video Editing, Project Management, Cameras and Television Production.

The Degree Show is an ideal opportunity for employers, members of the public and students from the whole University to see the results of an intensive year's work.

The show will run from 10am until 4pm on the 27th May. A schedule of the day will be available here during the week prior to the show.

Admission is free - we hope to see you there!

Schedule for the day

Where?
Small and Great Hall, Richmond Building, University of Bradford

SCIM project work is showcased in different ways:

Computing students have a poster show.

Bradford Media School and the Department of Creative Technology hold a degree show. Previous showcases have been at external venues; however, this year it came on to campus. Unlike EDT, this work is assessed prior to the showcase.

The story continues ...

We will be bringing together the findings from Bradford and Kingston over the summer and presenting these at the **Outduction conference** at Kew Gardens on **6 September 2011** – www.outduction.ac.uk/conference.php
